

Flight school lessons reset (PC version)

In Aerofly FS 2 you can repeat each flight school lesson as many times as you want. But the ratings can't be reset individually. However, if you want to pass all the lessons again there are two possibilities for a complete reset:

1. Delete the Aerofly FS 2 via the Steam Client and restore.
2. Go to the user directory C:\\User ...\\MyDocuments\\Aerofly FS 2 and delete the file "mission_progress.tmp".

The advantage of the second way is the joystick settings will not be reset.
