

Update settings at the steam client

How to change the Aerofly FS 2 update settings on Steam? If you don't have changed any settings in your Steam client, then you'll get any updates automatically.

How to check "automatic updates" status:

- Open the Steam client and click on "Library". Select aeroflyFS2 under "Games"
- Click right on the aeroflyFS2 and select "Properties".
- Select the tab "Updates" in the new window, shown on the right
- "Keep this game up to date" signals that automatic updates are enabled.

How to do an update manually:

To run an update manually, proceed as follows

- Open the Steam client and click on "Library". Select Aeroflot FS 2 under "Games"
- Click right on the Aerofly FS 2 and select "Properties".
- Select the tab "DLC" in the new window, shown on the right
- Here you can see new update and their status.
